

Plank Jack

Start in a modified [plank position](#), balancing on forearms (elbows aligned under shoulders) and toes. Tighten abs so your body is straight from head to heels. Keeping torso tight, hop feet out wide. Hop feet back to the starting position and repeat.

Targets: Upper and lower abdominals

In an effort to help each and every patient Dr. Ralph has put together a group of physiotherapy exercises that can be accessed on our website at:

<https://www.highlandfamilychiro.com/health-resources.html>

These can be done in the privacy of your own home until you are able to be back in the office. Please feel free to share these with your friends and family.

Dr. Ralph has also put together a home care kit that includes a small foam roller, balance disc, and bands that we are offering at our cost of \$30.00 and at this time we are offering no contact drop off service for the kit.

We are currently back to seeing routine and maintenance patients. Please feel free to call 770.565.8151 if you have any questions about this exercise, our schedule, or our home care kit.
